About Rosmerta

The Rosmerta Group has been entrenched in the transport sector of India for the last 20 years through products like Smart Card Driving License/ Vehicle Registration Cards, Speed Limiting Devices, Vehicle Tracking Systems (VTS/ITS), Inspection & Certification (I&C) Test Lanes, Automated Driving Test Tracks and High Security Registration Number Plates (HSRP). We have a Pan-India reach with over 4,000 employees spread across 300 offices in 20 states of India. We serve a diverse range of customers ranging from Central & State Governments, Automobile OEMs, State Transport Corporations and Private Institutions.

Being a part of the automotive sector, we continually strive to work towards reducing the industry's impact on the environment. Hence the conceptualisation of RosBlu, an innovative Diesel Exhaust Fluid (DEF) that helps reduce the emission of harmful gases into the atmosphere substantially.

With Rosblu we attempt to introduce the patented Diesel Exhaust Fluid technology within easy access of vehicle owners across the nation. Produced inhouse at our state of the art manufacturing facilities in Haryana, we aim to have our presence felt across regions through our established distributor chain.

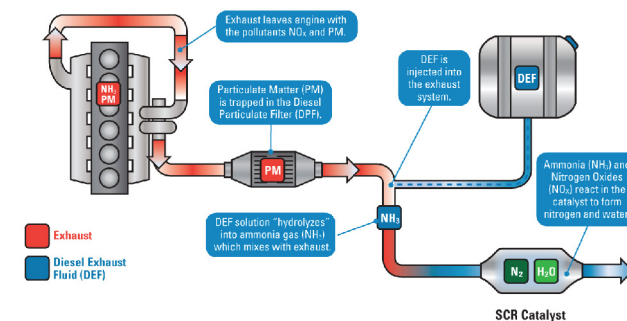

Each Rosblu product meets international quality standards and certified by NABL approved labs.

Rosblu

As an emerging brand, We are taking care of the quality by meeting the expectations of the standards set by ISO 22241 & VDA. All Rosblu products, which will be controlling the emission parameters meet the Bharat stage VI standards. To ensure quality standards we proactively check on the product specifications at our inhouse lab facility at each manufacturing unit. To ensure that we meet the requirements of OE's and institutions PAN India, we are making ourselves present at 70 plus different locations through our state of the art manufacturing facilities.
