

ROSMERTA

Pioneers In Mobility Solutions

ROSMERTA
Technologies Limited

EDITION 2024

WHO WE ARE?

Rosmerta (**ROS-MUR-TA**) stands as a beacon of innovation in India's mobility solutions landscape. With a steadfast commitment to excellence and a rich history of groundbreaking advancements, Rosmerta has become a driving force in automotive technology. Rooted in a vision to create safer, smarter, and more connected Indian roads, the company is at the forefront of the Surakshit Safar initiative dedicated to reducing road accidents and fatalities by 50 percent by 2030.

- Rosmerta holds a remarkable 60% market share in the Indian High-Security Registration Plate (HSRP) Industry, making it the world's second-largest and India's foremost manufacturer.
- Rosmerta excels in operating across diverse domains: Identification, Sustainability, Connected Electronics, Compliance Services, and Vehicle Care. The group is committed to delivering innovative solutions and making a significant impact across the automotive industry.
- Rosmerta's offerings demonstrate a dedication to transforming India's roads through cutting-edge technology, providing comprehensive solutions for a smarter and safer transportation ecosystem.

Rosmerta Group has solidified its position as an industry leader, serving over 3,00,00,000 unique customers annually. Headquartered in Gurugram, Haryana, the Group's nationwide presence, bolstered by over 4500 employees and a network of state offices and branches, underscores its unwavering commitment to E-governance, Sustainability and Road Safety in India.

OUR TEAM

PILLARS OF SUCCESS

Mission

Committed to contributing to a cleaner and sustainable future for the global mobility landscape.

Vision

To become a leader in the automotive industry, achieving growth through Innovation and strategic expansion.

Value System (DRIVE)

Dedication

We are dedicated to our mission and consistently strive for excellence in all that we do, from product development to customer service.

Innovation

Innovation is at the core of our identity, and we continually seek new ways to improve and lead the industry.

Resilience

We approach challenges with resilience, embracing them as opportunities for growth and learning.

Versatility

We value versatility, adapting to changing market dynamics and evolving customer needs.

Ethics

Ethics and integrity are non-negotiable, guiding our decisions and actions to ensure trust and transparency in all our interactions.

KARN NAGPAL
PRESIDENT

Karn Nagpal is an accomplished entrepreneur and a visionary leader who is focused on technology-driven mobility solutions that solve tomorrow's problems today. Over the years, Karn has incubated multiple successful divisions under him, such as Telematics, Connectivity, and Vehicle Care, and his strategic understanding, coupled with his expertise in growth strategy, M&A, and international expansion, has led the 5000+ employee strong group towards significant growth.

KARTICK V NAGPAL
PRESIDENT

Kartick Nagpal, a stalwart of holistic growth, has propelled Rosmerta Group to more than just road safety solutions. His leadership has taken the High Security Registration Plate vertical to new heights, becoming India's largest and the world's second-biggest company in the space. With a commitment to Sustainability and an eco-friendly future for all, Kartick has steered Rosmerta to excel in cutting-edge Vehicle Scraping facilities and state-of-the-art plants for manufacturing Diesel Exhaust Fluid. Kartick continues to drive progress, innovation and sustainability, positioning Rosmerta Group as an industry leader.

सुरक्षित सफर (SAFE JOURNEY)

Rosmerta Technologies Limited proudly aligns with SIAM in driving safe and responsible mobility solutions, shaping the trajectory of India's automotive landscape. Our primary objective is to enlighten and empower the masses in pan-India by promoting responsible road behavior. Serving as a dedicated platform for road safety awareness, it aims to educate visitors on the importance of road safety and showcase best practices in fostering a culture of responsible driving.

Our four-year association with SIAM, as a key partner, emphasizes our active commitment to promoting road safety and responsible mobility practices. Along with SIAM we also collaborate with Kendriya Vidyalaya to raise awareness among young students across India supporting efforts to improve road safety.

The "Road Safety Education & Awareness Programme" for School Children is a testament to our dedication to educating the future generation.

Collaborating with SIAM, we bring expertise to the forefront, advancing initiatives in road safety and sustainable mobility. In this transformative journey, innovation, safety, and sustainability converge, defining our commitment to shaping a brighter and more resilient future for India's automotive ecosystem.

ROSMERTA IN MEDIA

Rosmerta Technologies commits Rs 200 crore investment in ten vehicle scrappage facilities

Rosmerta Technologies President Kartick Nagpal aims to recycle 300,000 vehicles annually through the new scrappage centres, supporting the circular economy.

Press Trust of India

Rosmerta lines up ₹200 crore to set up 10 vehicle scrappage units

The automobile technology company will be able to process up to 3 lakh vehicles annually.

Rosmerta lines up Rs 200 cr to set up 10 vehicle scrappage units in 3 yrs

The company currently operates a single vehicle scrappage facility in Manesar (Haryana) with a capacity of processing 30,000 vehicles annually.

Rosmerta to Set Up 10 Vehicle Scrappage Units, Invest ₹200 cr

New Delhi: Automobile technology and automation firm Rosmerta Technologies plans to invest Rs 200 crore to set up ten vehicle scrappage units over the next three years, according to a top company executive. The company currently operates a single vehicle scrappage facility in Manesar (Haryana) with a capacity of processing 30,000 vehicles annually. After the capacity addition, the company will be able to process up to 3 lakh vehicles annually. In an interaction with PTI, Rosmerta Technologies President Kartick Nagpal said that with the setting up of the scrappage centres, the company will be able to contribute to the circular economy by helping recycle three lakh vehicles each year. "With this regard, we plan on investing Rs 200 crore across India to leverage this situation and contribute to the circular economy," he added. The output from scrapped vehicle materials would save about 33 per cent on raw material costs and will bring down reliance on imported metals such as aluminium, copper as well as rubber. India, which is ranked fourth and sixth largest manufacturer of passenger and commercial vehicles respectively, imports metals worth USD \$4.7 billion each year. In August 2021, Prime Minister Narendra Modi had launched the national vehicle scrappage policy to help phase out unfit and polluting vehicles and also promote a circular economy. While the government has financially incentivised scrapping old vehicles and replacing them with new ones, over 50 lakh light motor vehicles aged over 50 years (as per industry estimates) continue to ply unchecked. Rosmerta Technologies is the country's leading manufacturer of high-security registration plates (HSRP). It also has presence in intelligent transport management systems, automated testing stations and automated driving testing tracks among others.
