About Sensorise

ENABLING M2M ADOPTION &
PROLIFERATION

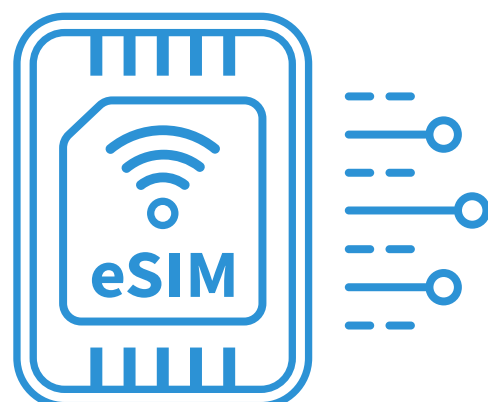

www.sensorise.net | sales@sensorise.net

Market Presence (Share)

- Diligent contributor to “Make In India” and “Swachh Bharat Mission”
- Successfully deployed IoT based Customer Feedback
- The device with remote features like portal, dashboard, analytics & field support in different states of India viz. Delhi NCR, Haryana and Kerala

Main Business Lines

- Sensorise QoSim
- Sensorise SenseLCM
- SenseTouch KYC
- QoSec : End-to-end security
- SenseMatic
- SenseIT MAID & CFD

QoSim
always on

SenseLCM
Life Cycle Management

SenseTouch

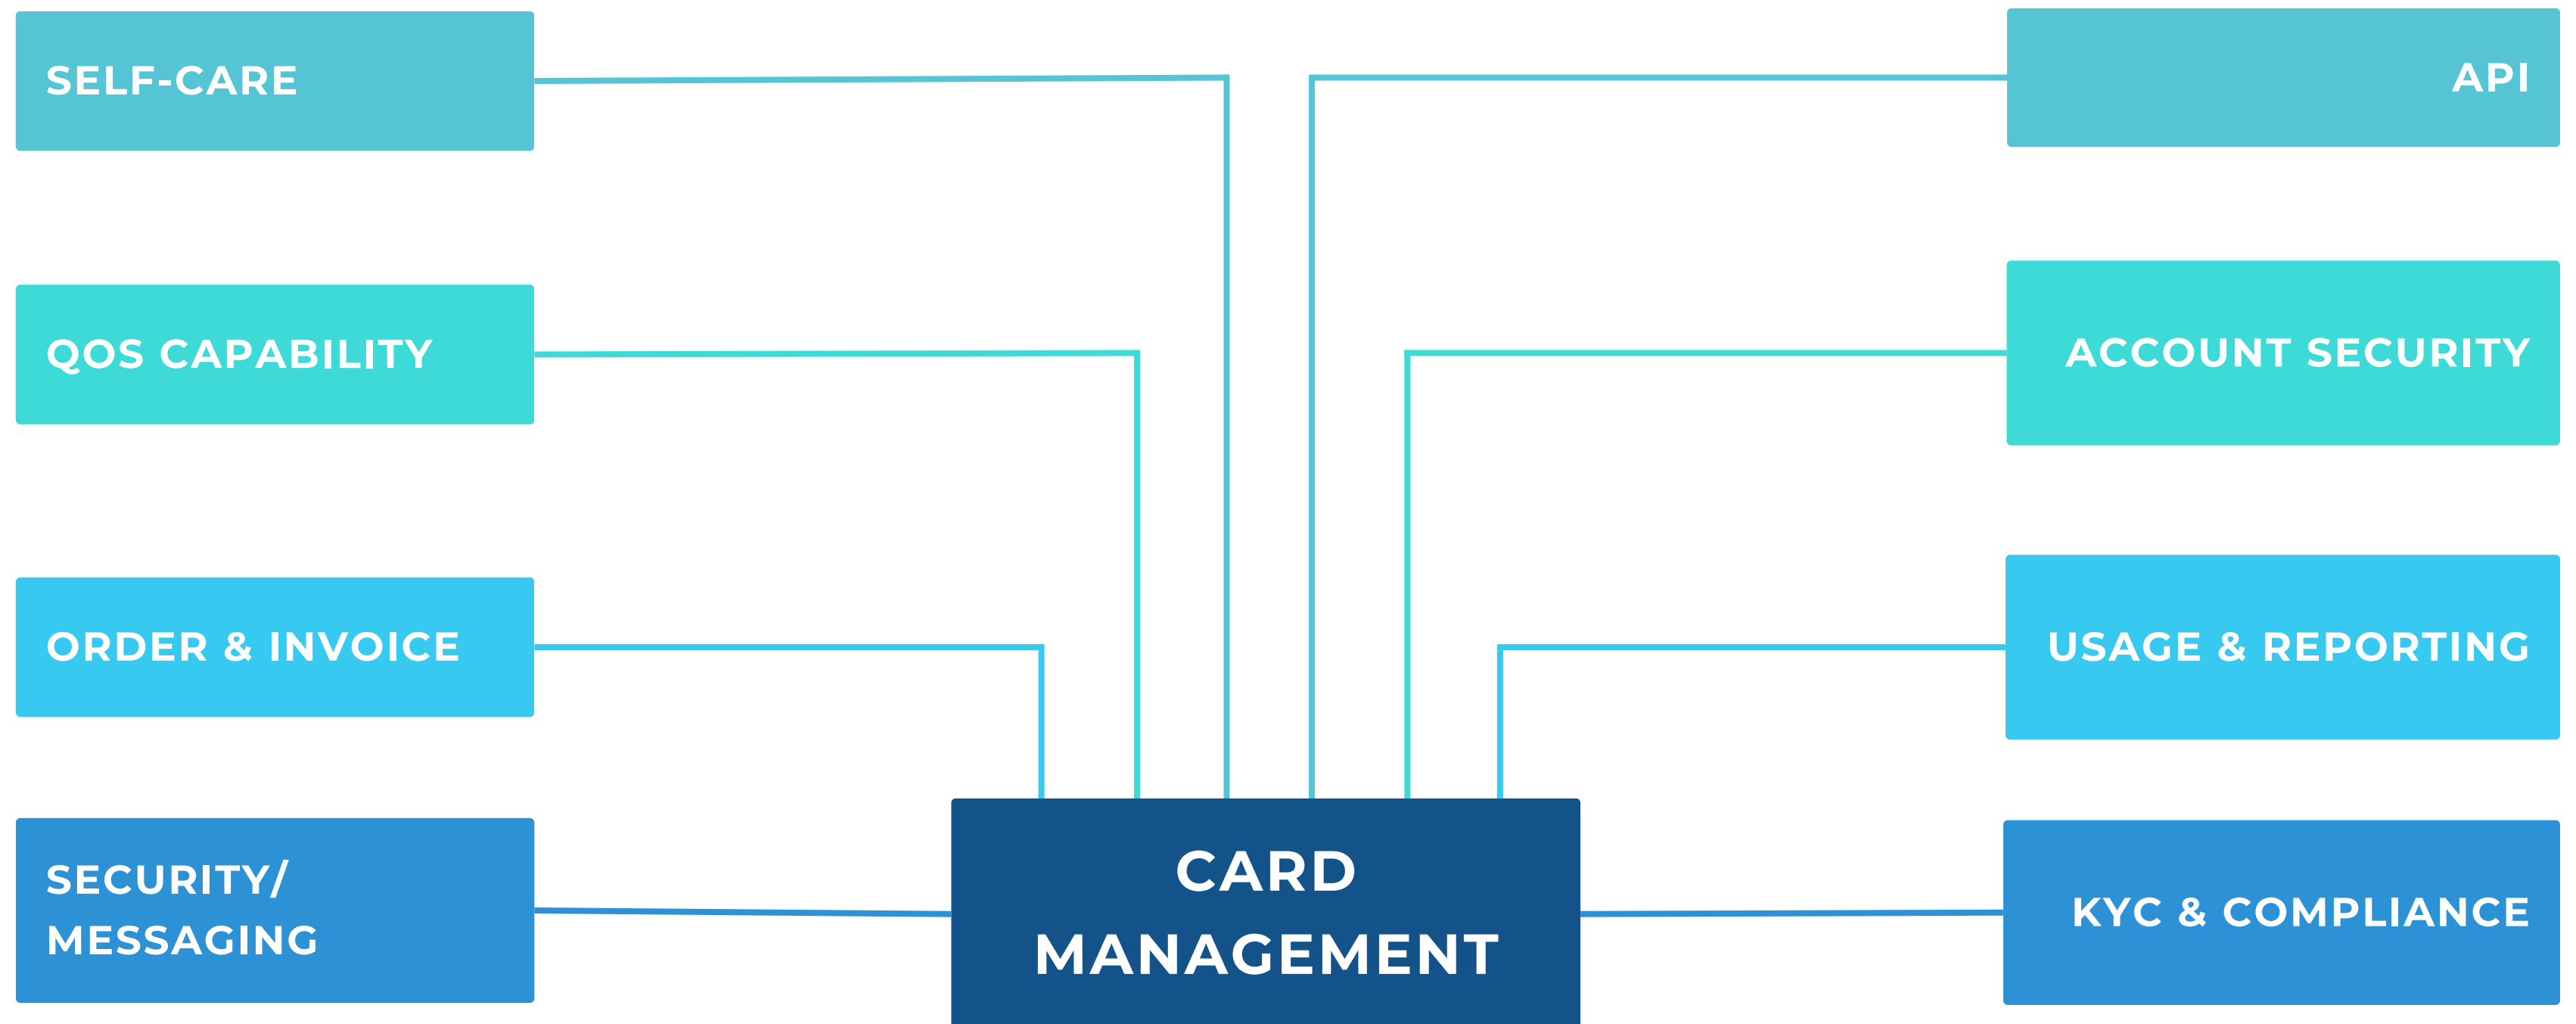

SenseLCM

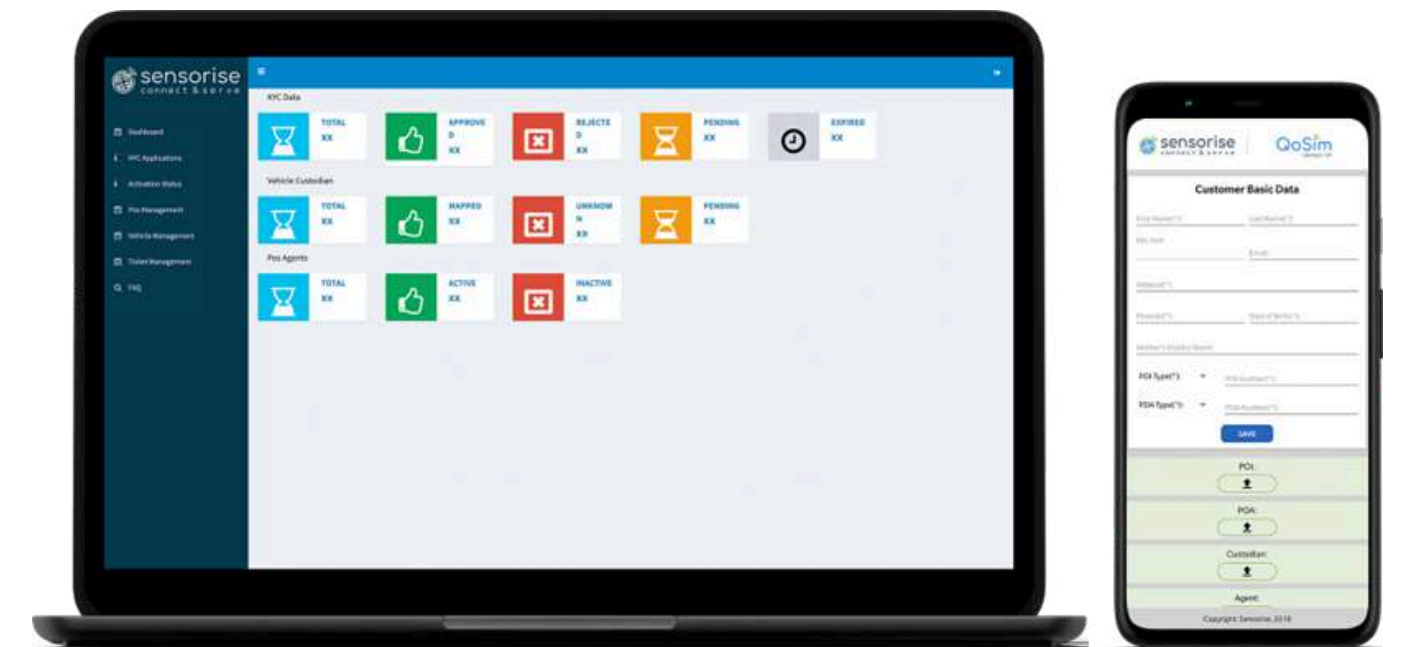

Cloud-based portal with
powerful capabilities for
Lifecycle Management of
Embedded SIM & Subscriptions

SenseLCM

SenseTouch KYC

01

**Compliant with
DoT Guidelines &
TRAI
Recommendations**

02

**Custodian –
Machine / Device
– SIM” Triplet
verification
using tamper
resistant secure
element and
authentication**

03

**Machine eKYC for
any M2M Use
case, SIM agnostic**

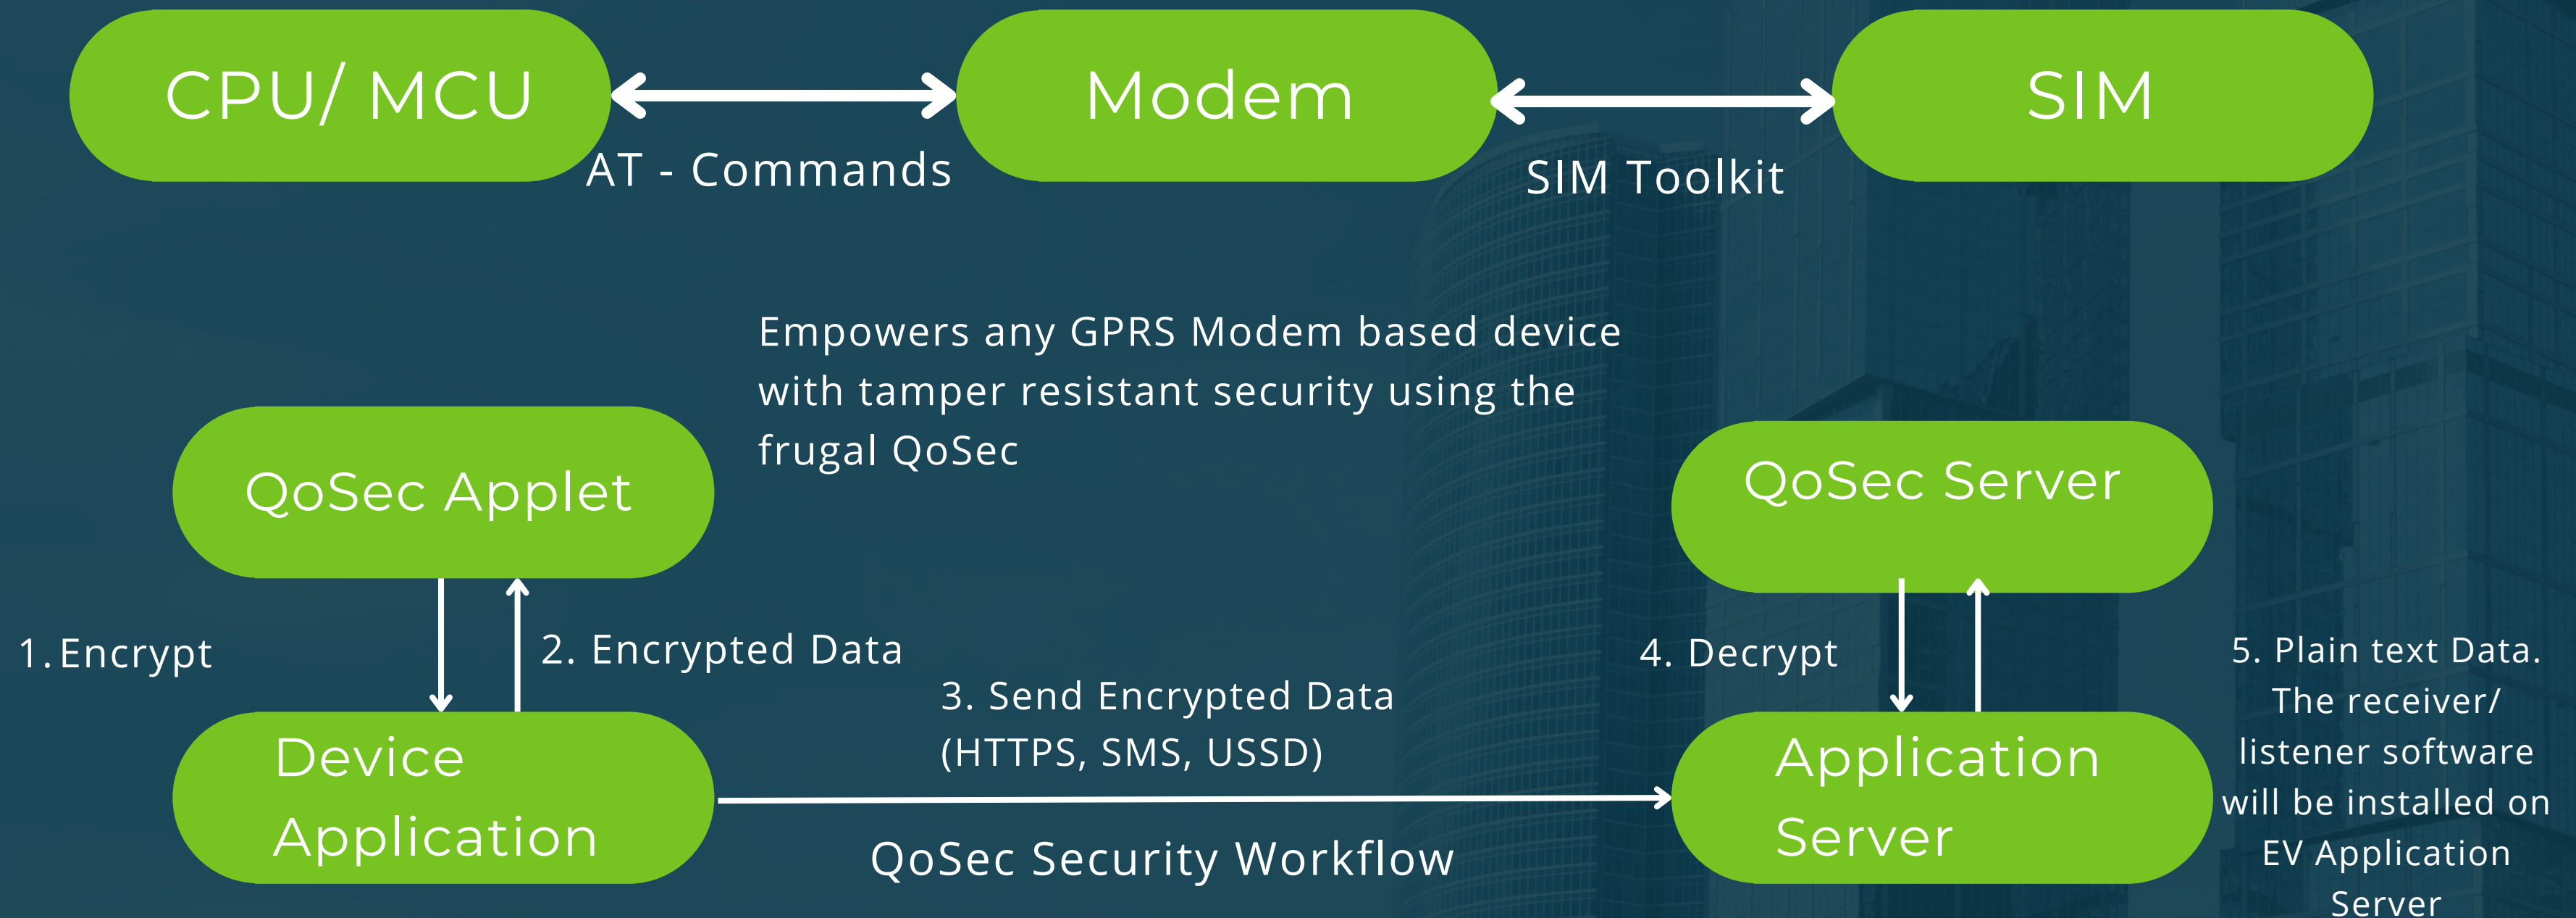

04

**Available in
Andriod and iOS
versions**

End-to-end Solution for secure registration & verification of IoT clients as per know-your-customer (KYC) norms

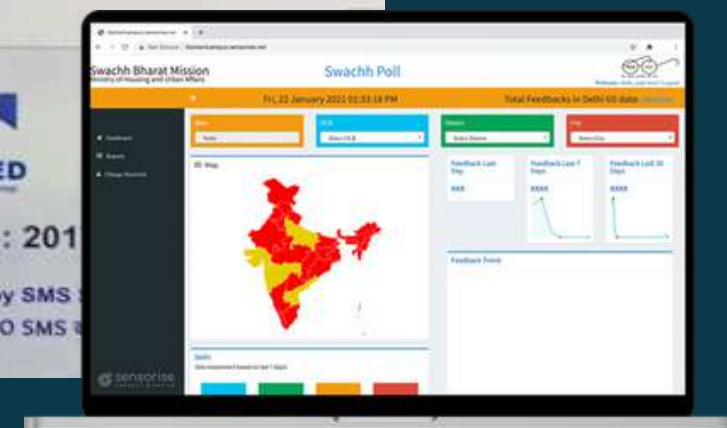

QoSec : End-to-end Security

Secure Element within QoSim, i.e. end-to-end IoT Security Solution that converts the operator SIM into a Secure Element

SenseIT - MAID & CFD

- Controller & GSM Module-based Customer Feedback Device & portal
- SenseIT Multi-Access IoT Device and portal for SCADA

Industry Use Cases

AIS-140 Standard compliance projects

Connected Vehicles Program

Public Transportation

Logistics and Asset tracking

Connected Solar pumps

SMART Street poles

Mining projects – ORSAC, APSAC & Jharkhand

SMART Energy SCADA and meter monitoring

Customer Feedback Device

Remote Healthcare and Education

Insurance Telematics

Industrial automation (IIoT)

Smart City Management

Awards & Accolades

**ET Telecom
Award 2020 -
Best IOT
Service
Provider**

**Bronze Stevie Winner 2020
End-to-End Connectivity Service
Provider for Machine Critical Use
Case (IoT/ M2M)**

**Bronze Stevie Winner 2022
SenseIT Energy MAID- the IoT solution
for Frugal and Reliable Energy
Distribution
AutomLaOtWion**

**India Procurement
Leadership Forum &
Awards 2020 - Best Use
of Technology by a
Startup**

**13th CMAI ICT World
Communication Summit
& Awards 2020 –
Excellence in IoT for the
year**

Contribution in Standards & Policy

Author

- Co-Author, Technical Report on Intelligent Transport
- Systems, Vehicle to Vehicle Communications and Embedded SIMs (Nov, 2015)
- Co-Author, ITU Y-Series Supplement 53, Digital Identity and eKYC for Automotive Industry (Published, Dec 2018)
- Lead Author of the M2M Security Workgroup, Recommendations for M2M Security (Released, Jan 2019) Co-Author, ITU Proposal on Open Bootstrap Framework (Mar 2019)

Editorial Group

- Technical Report on Communication Technologies in M2M / IoT (TEC, May 2015)
- M2M Gateway & Architecture (TEC, May 2015)
- M2M Enablement in Safety & Surveillance System (TEC, Nov 2015, Released by Secretary, Telecoms)
- ICT deployment and strategies for Smart Cities (TEC, Jul 2016)
